

We will be starting set up Thursday afternoon at 12:00pm. WE would love all the help we can get to unload the equipment trailer and set up the rings. We appreciate everyone's help in this. It makes everything go so much easier.

When entering the site, please LOOK for horses when crossing the track.

We will have two rings set up. Friday will be TEAM which will alternate in both rings. We will wait ten minutes after the completion of the Team classes, prior to starting the walkthrough of the next class.

Please note we are sharing the weekend with our friends at Data Driven Agility. On Saturday and Sunday they will be holding their UKI trial in conjunction with PAWS. We are working together to make this a great experience for everyone. Conflict?? We got you covered, no worries. Let the gate in each ring know and we will make it work.

PLEASE, PLEASE, PLEASE, check all information including JUMP height and level, listed below carefully, and contact me with any discrepancies immediately. If you have sent me a correction and do not see it please contact me immediately. Please feel free to email me your dog's permanent height card or your dog information page from USDAA, if it is not already on file. Doing so will allow you an easier, faster self check in. Please do not send temporary blue cards.

Catalogs will be available on my website [WWW.MYDOGENTRY.COM](http://WWW.MYDOGENTRY.COM) the Wednesday prior to the trial and on the Facebook page K9 Agility Services Competitor Corner.

#### Course Maps

Course maps will be posted to the K9 Agility Services Competitor Corner Facebook group (<https://www.facebook.com/groups/k9agilityservices>) and on [WWW.MYDOGENTRY.COM](http://WWW.MYDOGENTRY.COM) They will also be posted at the site for competitors to view or take pictures of.
