Course Briefing:

Like titling gamblers, accumulate as many points in the opening as possible.

- Jumps = 1 point
- Tunnel, tire = 3 points
- Aframe, teeter = 5 points
- Dogwalk = 7 points

After the designated amount of time (below), a horn will sound and you will start the closing. After closing horn goes off, jumps (including distance challenge) are now worth double points.

If you are over time, you will forfeit ALL closing points

FAQ:

Q: How many times can I earn points or an obstacle or combination?

A: Twice in the opening and then twice again in the closing.

Q: Is the finish jump live in the opening?

A: No. You can take the finish jump twice for points in the opening.

Q: What happens if my dog takes a non-jump in the closing?

A: They get 0 points for the non-jump obstacle but are able to continue accumulating points.

Q: What happens if my dog doesn't take the finish jump?

A: They forfeit all their closing points.

Q: What happens if my dog knocks or runs under the bar of the finish jump?

A: They get 0 points for that jump, but get to keep their closing points.

Q: Do I have to take the jump, tire, or weaves that are right by the start line to start my dog's time?

A: No. They just need to cross the line.

Q: If I want to start towards the right side of the course, could I just come in through the exit gate since that's easier?

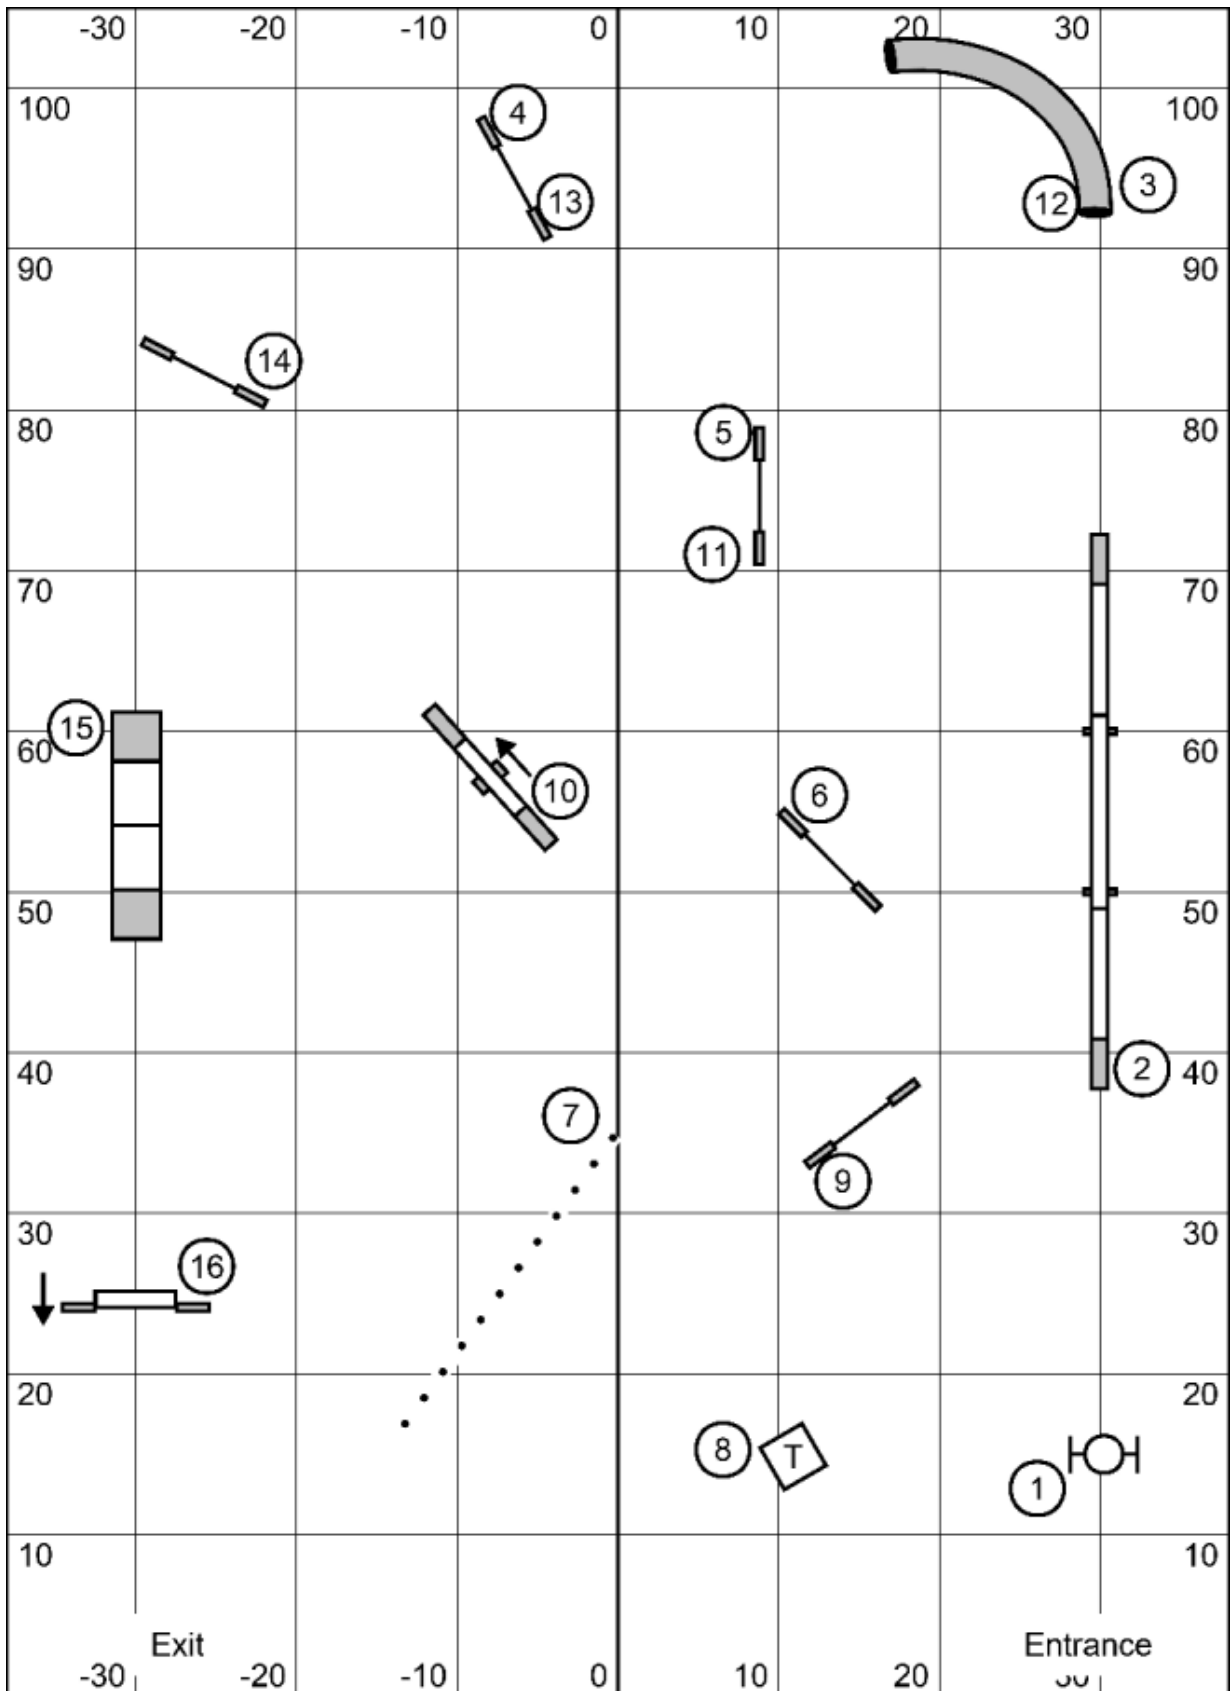

A: NO. For the sake of safety and efficiency you must enter from the entrance side (bottom left on the map).
