

Cheer for TEAM USA!

* If your dog successfully takes the red tunnel with the handler outside the line, the next non-tunnel obstacle you take is worth double points.

* If your dog successfully takes the white tunnel with the handler outside the line, the next two non-tunnel obstacles you take are worth double points.

* If your dog successfully takes the blue tunnel with the handler outside the line, the next three non-tunnel obstacles you take are worth double points.

* Each tunnel can be used as a doubler only once before the buzzer. The doubling power resets after the first horn and each can be used once more each.

* All obstacles may be used twice total for points. Only the doubling power of the tunnel resets after the horn.

* To qualify, you must 1) get the points needed for your level, 2) successfully double at least one obstacle, and 3) make it to the table without going over time.

* The table is live after the first buzzer OR when you direct your dog to it before the buzzer. It is worth an additional 5 points. This point value MAY be doubled.

3 Point: Tunnels, Weaves, Double

5 Point: Dog walk, Combo (in flow), A-frame

Jackpot Times:

Small dogs: 35 seconds opening 20 seconds closing

Large dogs: 30 seconds opening, 18 seconds closing

Going over the total game time will result in a NQ.

The second buzzer is 6 seconds over time.

To Qualify, teams must complete the Gamble along with earning enough opening points within the time allowed

Level 1	32 point
---------	----------

Level 2	36 points
---------	-----------

Level 2	60 points
Level 3	40 points

Level 5, C	44 points
------------	-----------

Specialists and Enthusiasts: Two points fewer

The start line is bi-directional

Standard Level 1

The map shows a grid with coordinates from -40 to 40 on both the x and y axes. The grid is divided into four quadrants by a vertical line at x=0 and a horizontal line at y=0. The top-left quadrant contains locations 9, 10, and 11. The top-right quadrant contains locations 3, 4, 5, and 8. The bottom-left quadrant contains locations 7, 12, and 13. The bottom-right quadrant contains locations 1, 6, and 7. The central curved path (15) is located in the top-right quadrant. The 'IN/OUT' markers are located at the bottom of the map, one in the left quadrant and one in the right quadrant.
