

Jackpot

You may start with either the tunnel or the jump, and may do the gambles at any time (before or after the first buzzer). You may do multiple gambles but must complete at least one of the gambles successfully to qualify. The gambles with circled letters and numbers are bi-directional, but the square-numbered gamble must be performed in the indicated direction.

Each gamble may be attempted once (the first time you do two sequential gamble obstacles is your attempt). If you fault a gamble you will receive regular points for the obstacles successfully completed.

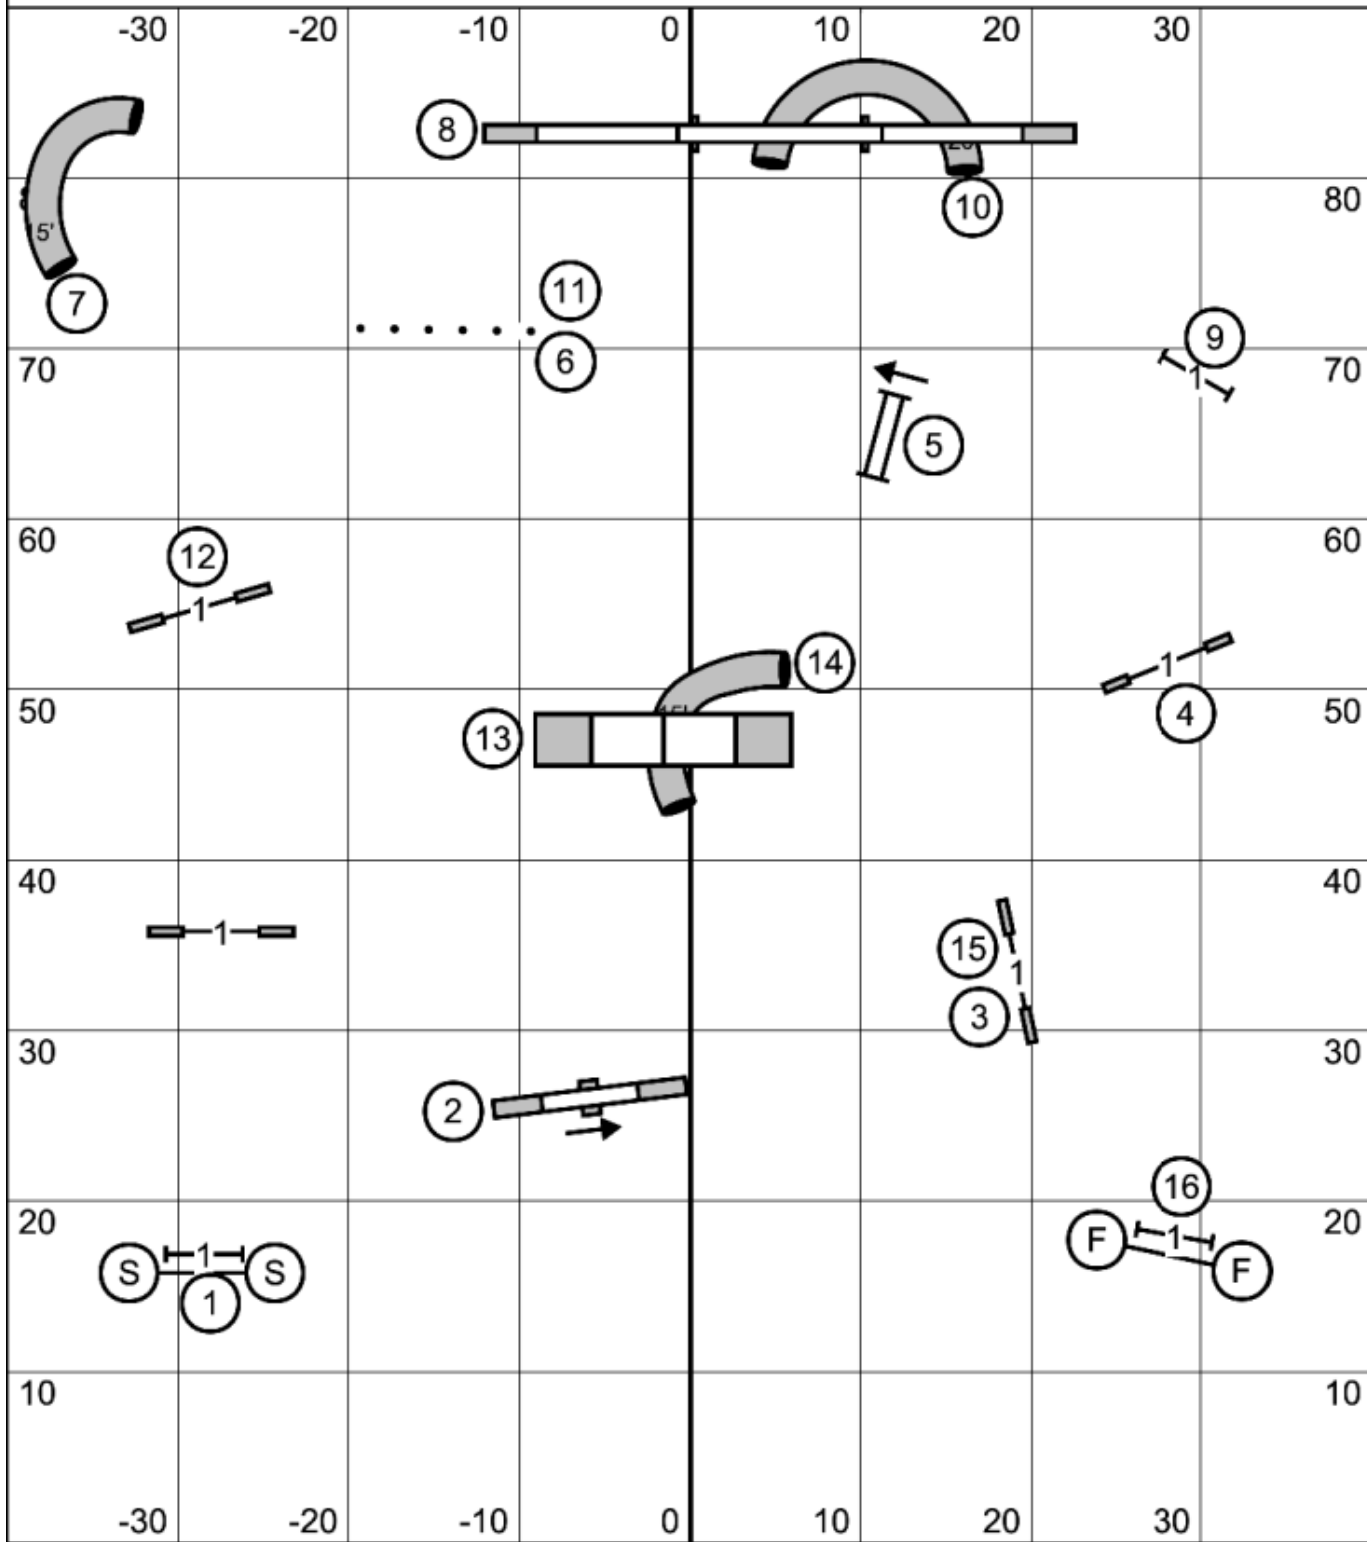

You may do each obstacle 2x for points, not including the gambles (e.g. you can do the A-frame 2x for 5 points each and one time as part of the gamble).

Table is live after the first buzzer and is worth 5 points.

Circled numbers (bi-directional): 15 points
 Square numbers (uni-directional): 20 points
 Circled letters (bi-directional): 25 points
