FullHouse Levels 1/2/3/5/C

BRIEFING: The Finish Jump is live at all times after you receive the "Go." It does NOT have a point value.

All obstacles may be taken twice for points and back to back obstacles are allowed if done safely.

To qualify, you must obtain the required obstacles, which are three (3) 1 point obstacles, two (2) 3 point obstacles and one (1) 5 point obstacle and the additional points to complete your level.

Once you complete your point accumulation, you may go to the finish jump at any time. Once the horn blows, you have 5 seconds for your dog to perform the finish jump to stop the clock, or lose one point per full second over time.

3 Point: Tunnels, Panel

5 Point Jokers: A-frame, Dog walk, weaves

Snooker Levels 1/2

The diagram illustrates a snooker table layout for levels 1/2. The table is divided into four quadrants by a vertical center line and a horizontal baulk line. The top-left quadrant contains balls 2, 3, and 4. The top-right quadrant contains balls 5, 6, and 7a. The bottom-left quadrant contains balls 1, 2, and 3. The bottom-right quadrant contains balls 4, 5, and 6. The diagram includes various ball positions, cue ball positions, and shot paths. A scale from 10 to 90 is shown on the left and right sides, and a scale from -40 to 40 is shown at the top and bottom. The bottom corners are labeled 'IN/OUT'.

*In the opening: All obstacles are bi-/multi- directional.
For combo #7, order and direction do not matter; just all parts
*You may do a color multiple times, but reds may only be used once
* In the closing: Everything must be taken as labeled.
#2 IS bidirectional in the closing.
* if you hear me say thank you or a whistle-please proceed to the finish
