

Jackpot 1235C

Non Traditional Jackpot Briefing:

To Qualify:

When you get in the Left or Right box, all obstacles are double points! You can only use each box for points while you are in it, as soon as you step out of the box, the points no longer double and that box becomes dead. If you go in it again, you will just get the regular point value. To qualify you must have at least **two obstacles with double points and the total points for your level**. Challenge: if you are in the box labeled RIGHT and you do either tunnel on the left side of the course, you will get 15 points for that tunnel (BOTH tunnels can be done and if you do, it will earn you 30 points), but if you come out of the box before you attempt the box is dead, the challenge is dead.

Jackpot Times:

Big Dogs: 16V/16/20/24 =
Opening 30 Sec, Closing 18 sec = 48 sec total

Small Dogs: 4/8/12 =
Opening 35 sec and Close 20 sec = 55 sec total

Second horn will sound 6 seconds after total game time.

Total Points Needed:

Level 5C: Reg/Vet = 44 points less 2 for Enth or Spec
Level 3: Reg/Vet = 40 points less 2 for Enth or Spec
Level 2: Reg/Vet = 36 points less 2 for Enth or Spec
Level 1: Reg/Vet = 32 points less 2 for Enth or Spec

AFrame, Teeter, Jump Combo = 5 points

Tunnels, Wall, Weaves = 3 points

Jumps, Panel = 1 point

Wall = first time 7 points, 3 points after 1st time

All obstacles can be done twice for regular points.

Obstacles can be done back to back, please do them safely.

a-b jump combo must be taken in flow

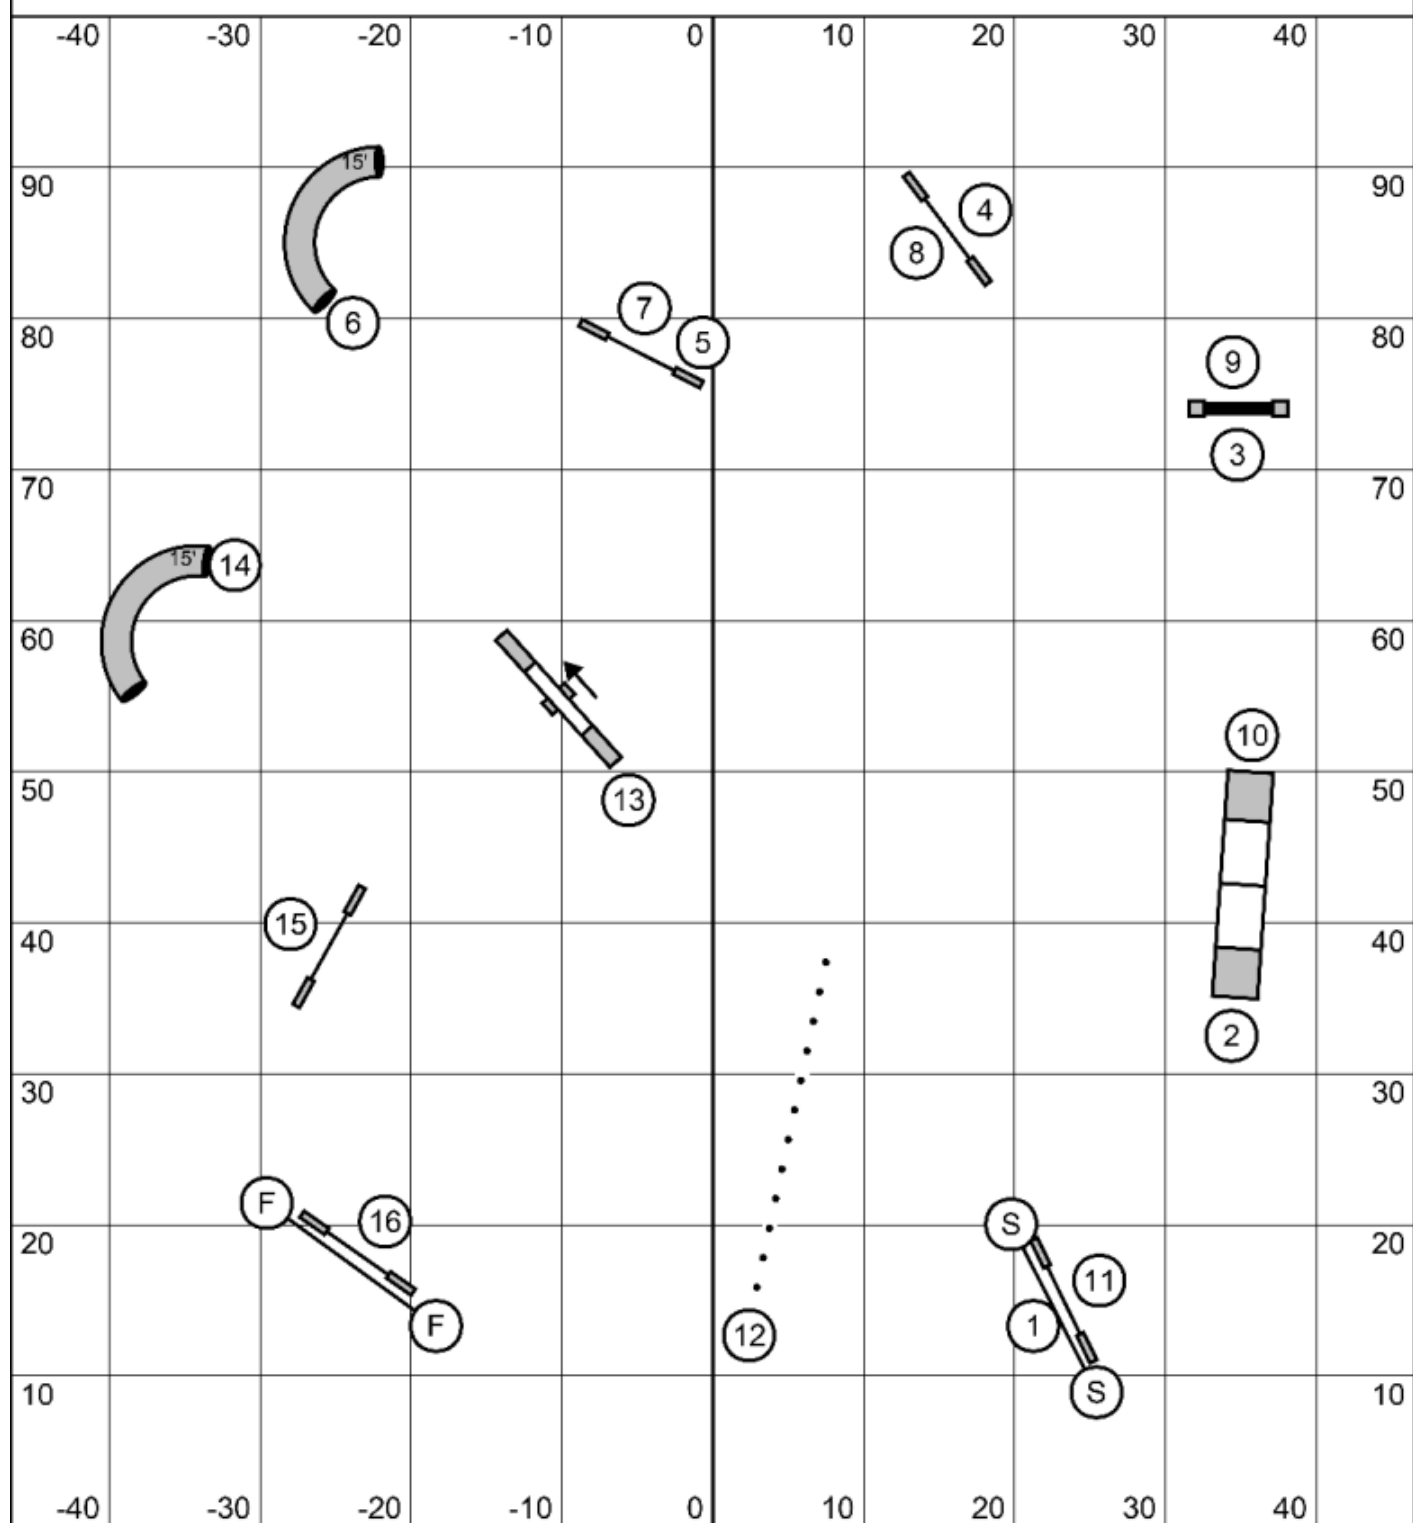

You can accumulate points after first horn.

Finish Jump will stop your time/end the game after first (opening) horn.

Startline is bidirectional

Snooker 12

The diagram shows a snooker table layout for a 12-ball game. The table is 12 feet by 6 feet, with a grid showing X and Y coordinates from 0 to 40. Balls are numbered 1-12. Balls 1-6 are red, 7-12 are yellow. The layout shows a specific arrangement of balls on the table, including a break shot from the top right corner and a follow-up shot from the bottom left corner.

Times:
Big 24/20/16/16V = 40 sec
Small 12/8/4 = 45 sec

2 is Bi-Directional in Closing
