

Jackpot All Levels

Briefing

"Dizzy Dogs"

This is a non-traditional Jackpot. In the opening, teams may run a path of their choosing to earn points, as they would in a traditional jackpot. Back to back obstacle performance is permissible as long as it is done safely. The horn will signal the start of the closing.

In the closing, the three "G" Gamble jumps and the finish tunnel are each worth 5 points one time for successful completion. The jumps may be taken in either direction, but the tunnel must be taken towards the exit gate to earn points. Teams may complete any number of the G jumps they wish but must end their run with the tunnel within the allotted time. Remember! The second horn will not sound until 6 seconds after your allotted time, but completing the finish tunnel one full second over time will result in an NQ.

Opening Time / Closing Time
 16"/20"/24" plus 16"V 30 sec / 18 sec
 4"/8"/12" 35 sec / 20 sec

Opening Point values as follows:
 1 point: Single Bar Jumps, Panel Jump
 3 points: Tunnels, Weaves, Parallel Double Jump
 5 points: AFrame, Dog Walk, Teeter

Points for Reg/Vet

Level 1	32 points
Level 2	36 points
Level 3	40 points
Level 5 & C	44 points
Enth/Spec	need 2 fewer points.

FullHouse All Levels

Briefing

To qualify, teams must successfully complete at least one 5-point Joker, two 3-point obstacles, and three 1-point jumps as well as accumulate the minimum number of points for their level within the allotted time. With the exception of the Finish Jump, all obstacles may be completed successfully for points up to two times; back to back is acceptable, provided it is done safely. When the horn sounds, point accumulation ends, and you should direct your dog to the Finish. Dogs are allotted 5 seconds to reach the Finish, after which one point is deducted from your total points for every additional full second you spend on the course.

The Start Line is bi-directional.
The Finish Jump is LIVE at all times.

5 point Jokers: A Frame, Weaves, Ascending Double
3 points: Tunnels, Panel Jump
1 point: Single Bar Jumps
no point value: Finish Jump

New for 2026! Point Accumulation Time/Total Time
16"/20"/24" plus 16"V jumping 12" 35 sec / 40 sec
4"/8"/12" 40 sec / 45 sec

Points to Qualify	Reg/Vet	Enth/Spec
Level 1	19 points	17 points
Level 2	21 points	19 points
Level 3	23 points	21 points
Level 5 and C	25 points	23 points

Snooker 3, 5, & C

Briefing

In the opening: The start line is not bi-directional. Everything else is bi/multi-directional, including the combo (order does not matter, but both parts must be attempted). Teams must complete a (R)ed and (C)olor combination three times (RC, RC, RC). R's can only be used one time each, but C's can be repeated. R's are worth one point each. C point values match their numbers.

In the closing: Obstacles must be taken in the order numbered, but you do not necessarily have to complete all obstacles to qualify. #2 is bi-directional.

New for 2026! If a Color jump bar is knocked down in the opening, zero points will be awarded, but the run does not end when the dog reaches that point in the closing. The dog must pass through the uprights for zero points and can continue on. For example, #2 falls during the opening, closing points can still be awarded as 0, 3, 4, 5, etc. If a Color is faulted in the closing, point accumulation ends, and the dog should be directed to the Finish Jump. **Questions?** Let's talk about it during the briefing before the walkthrough.

Finish Jump: The Finish Jump is not live until completion of your third Color in the opening or if you direct your dog to it. You must take the Finish Jump to receive a score, including if you hear a 'Thank you' or a whistle during your run. The Finish Jump is bi-directional and is not faulted if the bar is dropped.

Points for Reg/Vet

Level 3 30 points

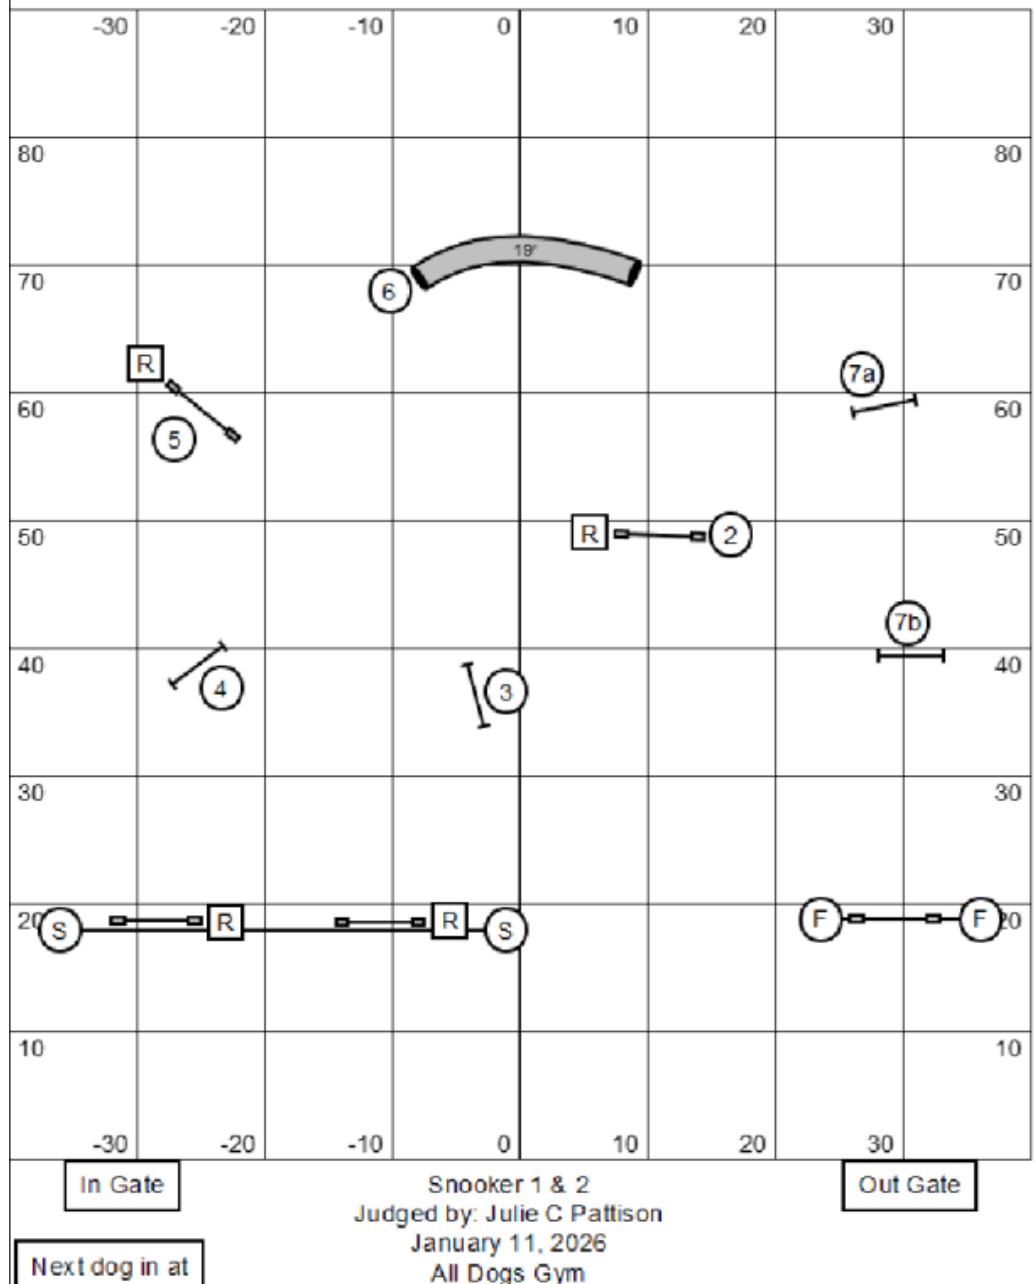

Level 5/C 32 points

Enth/Spec need 2 fewer points per level.
