Main Entrance

Check-in and measuring

Setup will begin at 1pm on Thursday, 6/18, if anyone would like to come help unload the trailer and setup the rings.

Setup and check-in and measuring for those who are not helping with event setup will be from 3pm-5pm on Thursday 6/18 as well as Friday morning. Please stop by and get your welcome bag on your first day!

Any dog entered in tournaments that does not have a completed registration card, i.e. three measurements that place the dog in a specific jump height, must be measured prior to competing at a Regional Championship event in order to confirm that the dog is eligible for the height entered.

If the dog measures up, the competitor must jump the dog at the higher jump height in all classes regardless of the jump height in which the dog earned its qualifications. If the competitor had a bye at the lower height, the bye is forfeited, and the competitor must compete in all rounds that may have been bypassed as a result of the bye.

If you have never been measured, please make sure you print your dog's measurement form ahead of time and bring it with you. You can find it at USDAA.com → My Account → [Dog's name]
