Snooker Levels 1 & 2

Opening

Team must complete a "red" jump (1 point each), followed by a "color" (obstacle of choice, from 2 through 7). If the "red" attempt is not successful, than another different red must be successfully completed before moving on to a "color". This red-color sequence is completed 3 times (red-color, red-color, red-color).

The same "red" jump may not be taken twice

If a color is failed, you must move onto the next red. Do not attempt another color.

All parts of a color must be completed before moving onto a red

Start line is bi-directional

All obstacles are bi-directional in the opening

Closing

Following the third "red-color" sequence, you must move on and complete the course, numbers 2-7. Any obstacles taken in between the last color and the "2" obstacle will result in your run ending

Point Requirements

Level 1 - 26 Points

Level 2 - 28 Points

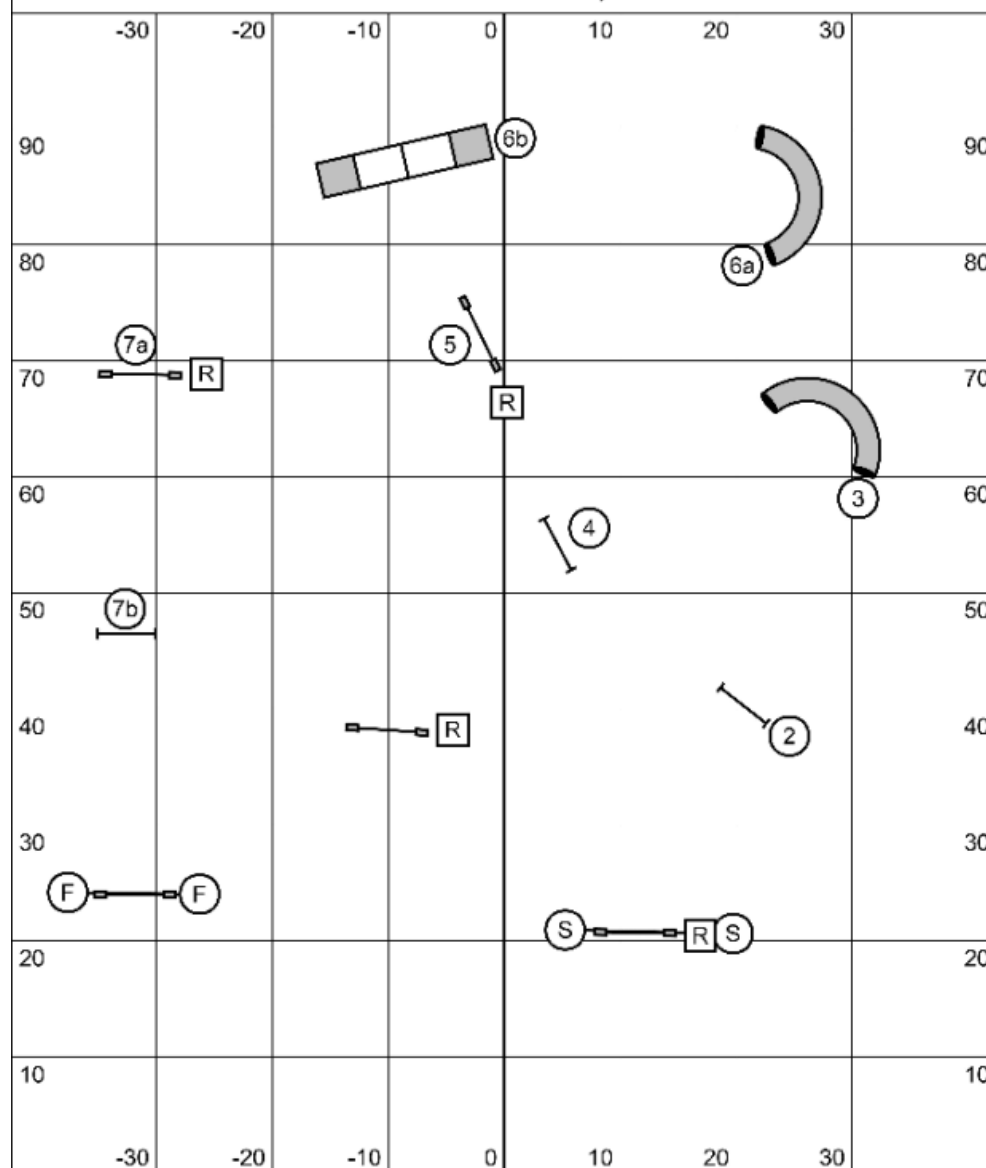

Level 3 - 30 Points

Levels 5C - 32 Points

*Enthusiast and Specialist teams need to accumulate two less points than listed

Opening

- Point accumulation
- May take obstacles twice for points
- Combo may be taken in either direction (in flow)
- Start line is bi-directional
- Table is not live

- Point accumulation continues
- Obstacle attempts reset (you may take each obstacle twice again)
- Table is live
- Table is worth 5 points

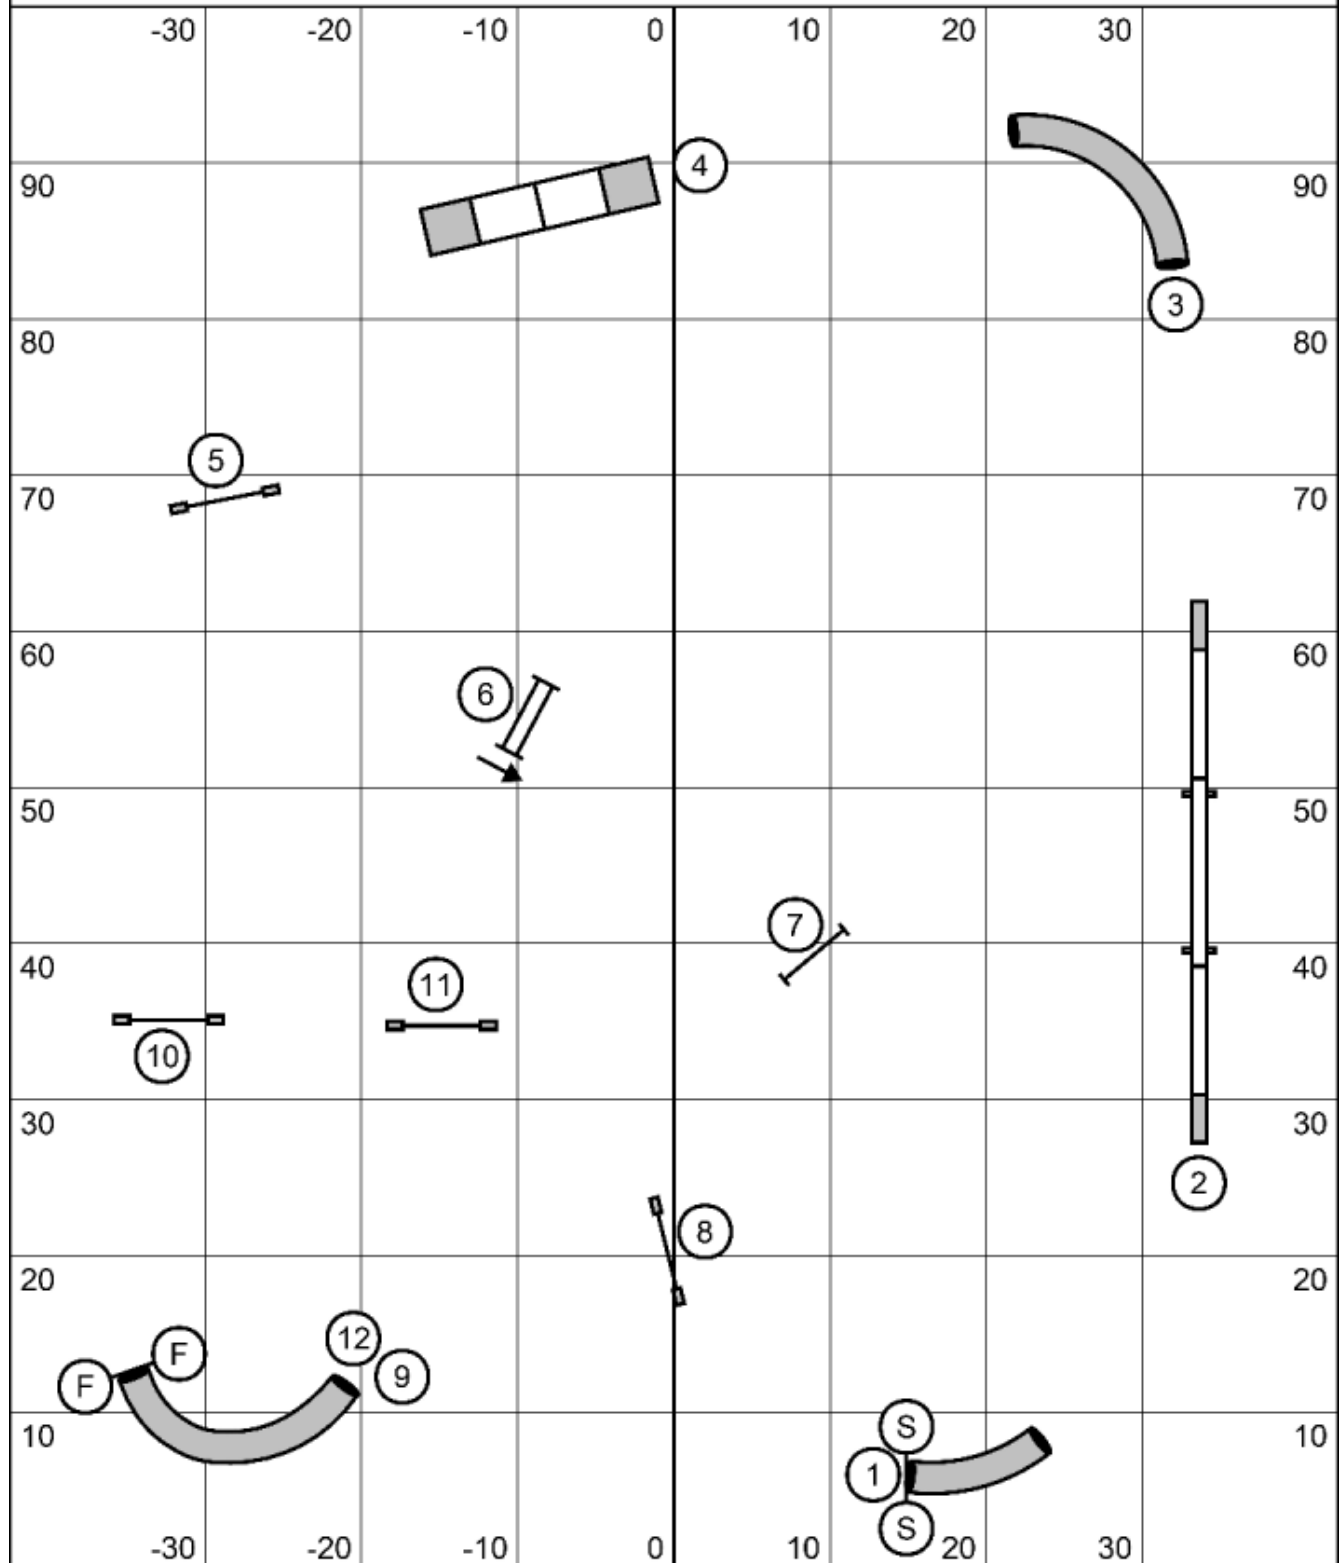

On the course is a distance bonus, denoted by obstacles labeled 1-3. The bonus is achieved if the team successfully completes the sequence, with the handler staying outside either the inner box (2-point shot) or outer box (3-point shot).

- Stays outside the inner box, the gamble is worth **15 points**
- Stays outside the outer box, the gamble is worth **20 points**

The bonus may be attempted at any time during the run, opening or closing. There is no attempt limit for the gamble (may attempt as many times as you would like), but teams may only collect points on the bonus one time.
