Snooker 35C

Opening:

Start line is NOT bi-directional. You may do a color multiple times but a red may only be used once. The combo may be taken in any order but be sure to complete all parts, even if a part is faulted.

Closing:

Everything must be taken as labeled. If you hear me say thank you, please head to the finish jump.

Points

Level 3 30 points

Level 5C 32 points

Enthusiasts and Specialist 2 points fewer

Times

Snooker 12

The diagram shows a snooker pool table layout used for an agility course. The grid has X-axis from -30 to 30 and Y-axis from 0 to 100. Obstacles are placed as follows: 7a (jump) at (-25, 100), 7b (jump) at (-25, 80), 6 (tunnel) at (-10, 95), 5 (tunnel) at (10, 95), 4 (jump) at (25, 90), 3 (jump) at (15, 80), 2 (weave pole) at (15, 60), 1 (jump) at (-25, 50), and a sequence of jumps and tunnels (3, 4, 5, 6, 7a, 7b) starting at (0, 40) and ending at (0, 40). The course starts and ends at an 'IN/OUT' box at (-25, 5). A red line indicates the sequence of jumps and tunnels.

Opening:
The start line is NOT bi-directional. You may do a color multiple times but a red may only be used once. The combo may be taken in any order but be sure to complete both parts, even if the first part is faulted.

Closing:
Everything must be taken as labeled. If you hear me say thank you, please head to the finish jump.
