Rabbit Express Briefing

If an off course error occurs (dog goes in the rabbit hole) at obstacle 4a and/or 11a, the handler must direct his/her dog through the a,b,c,d sequence (take the detour) else be faulted for failure to perform. The a-d sequence is judged just as the rest of the numbered course is. If the dog goes off course while performing the a-d obstacles, the handler must direct the dog back to obstacle a and re-attempt the a-d sequence until successful, at which time the course is continued with the next correct obstacle number.

If an off course error occurs anywhere else within the course, the judge will call a standard fault and the handler should direct his/her dog back to the next correct obstacle to be performed.

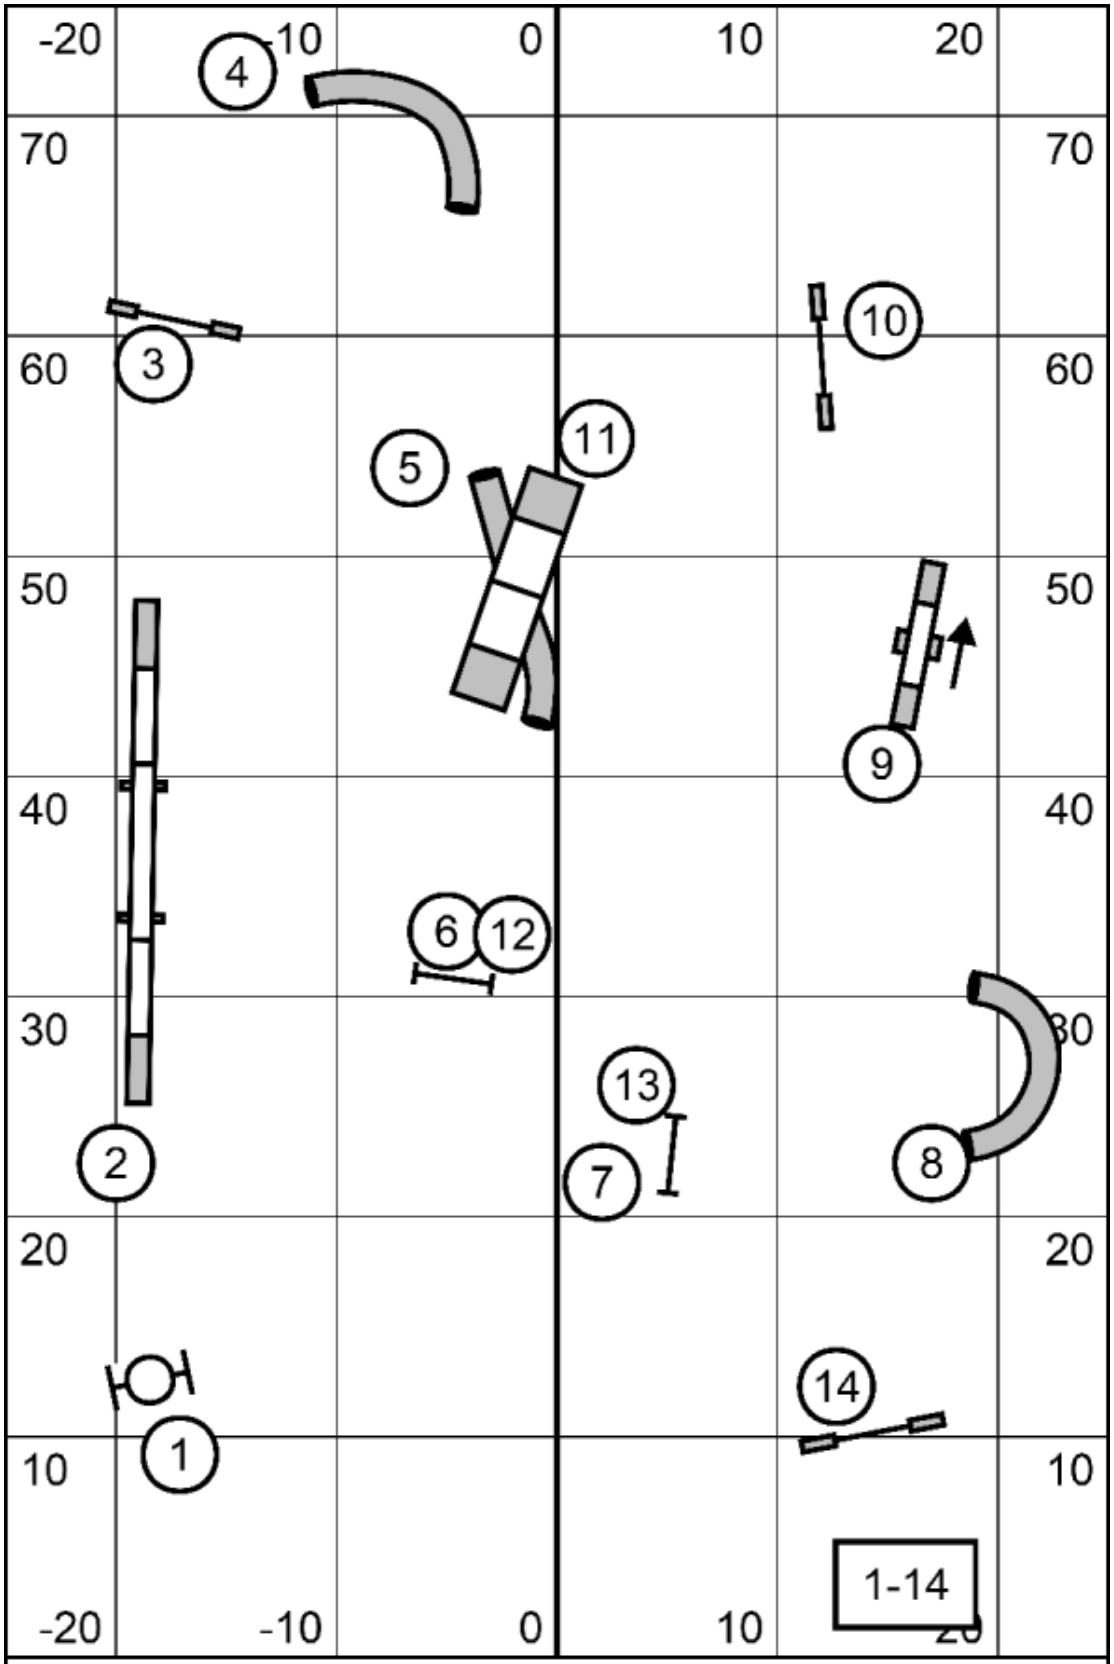

Dropped bars and missed contacts are faulted 5 faults.

Refusals are not faulted. Any failure to perform (omitting an obstacle, failure to correctly perform a-d obstacles while in the rabbit hole) will be scored an elimination.

Qualifying score is time plus faults under course time.

Steeplechase Briefing

Steeplechase is a speed game! Teams run a numbered course; standard course time (SCT) will be based on an agressive rate of speed, comparable to a jumpers course. The faults called are a little different than for a standard course, as follows:

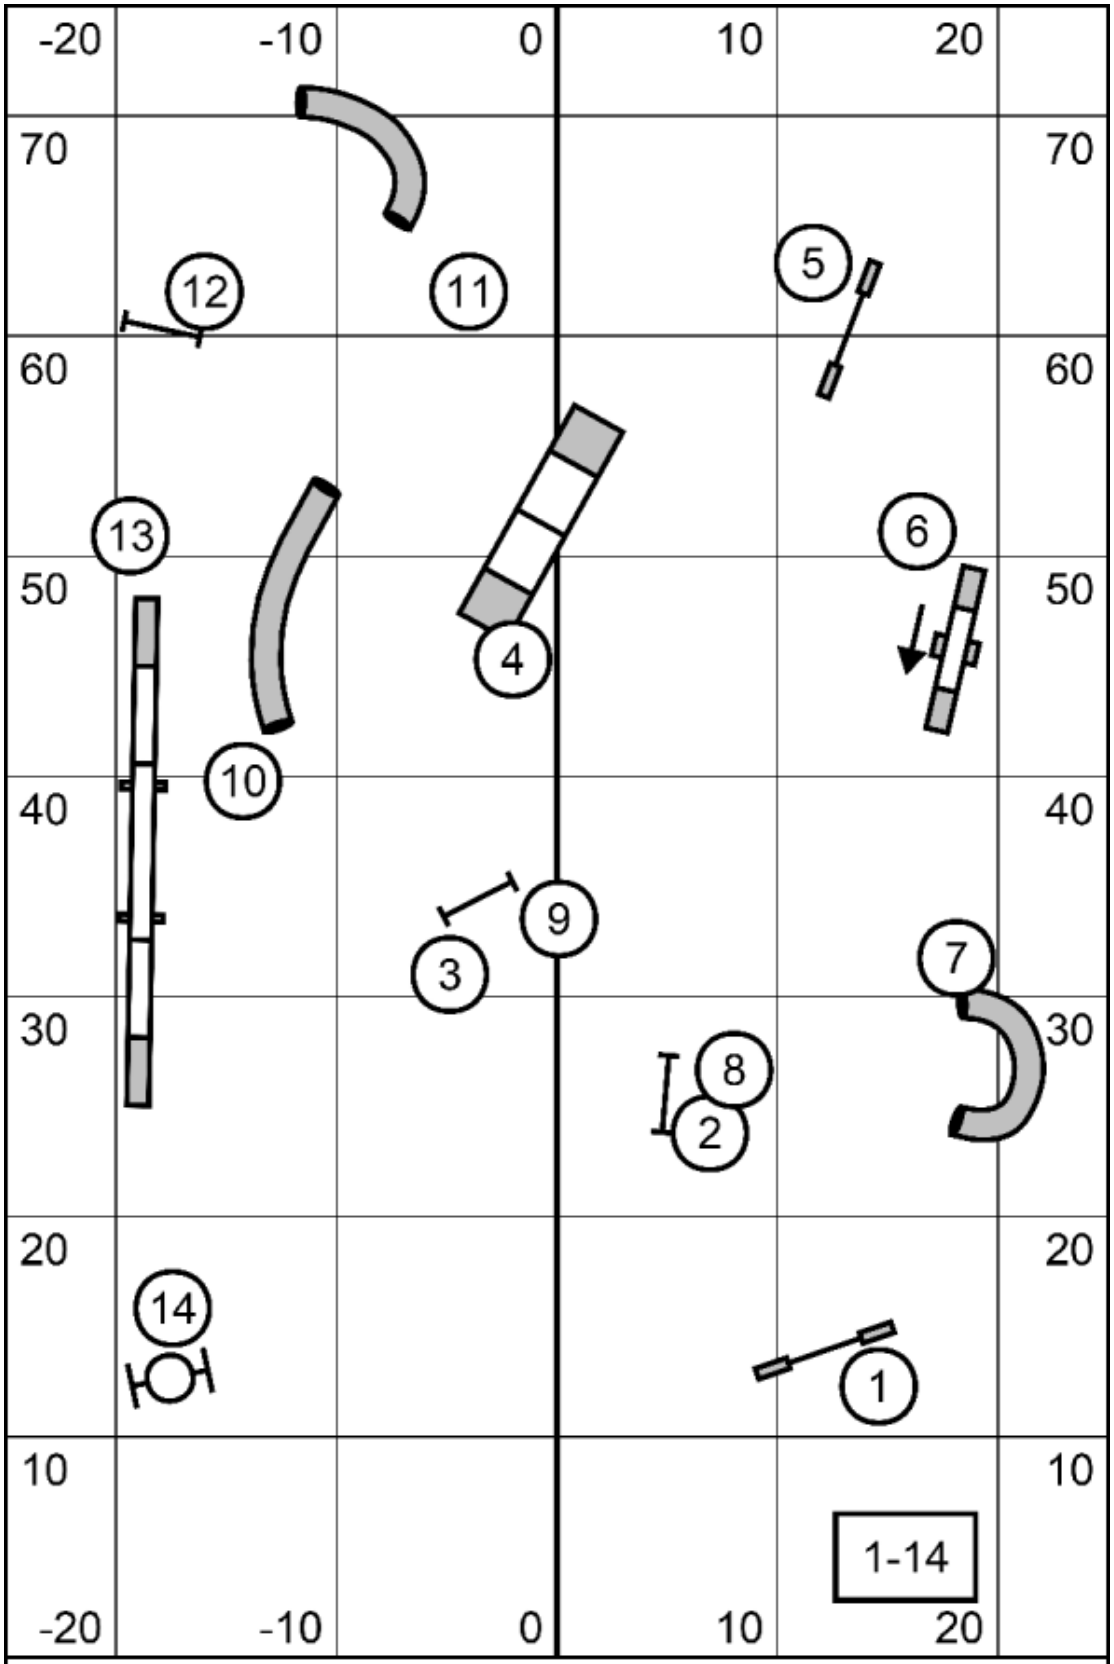

Off course - 20 faults
Knocked bar, missed contact - 5 faults
Missed weave pole or missed weave entry - no faults, just wasted time, but must fix before going on
Omitted obstacle - Elimination

Qualifying - time plus faults under SCT.
